36" W x 2' L	Ramp Section	1000 lbs.
36" W x 1' L	Starter Ramp	1000 lbs.

Our XM Ramp System is built with an open weave surface. Made from all aluminum, the XM was created from listening to our customers who live in parts of the country where snowy and icy conditions prevail during the winter months. Two-way traction on the surface means safety, while the modular design makes for fast installation.

- Open Weave Surface
- Two Way Traction
- Rain and Snow Drainage
- Fast Installation – Installs in Hours
- No maintenance
- All Aluminum System
- Modular Design
- 1000 lb Weight Capacity
- 3 Year Warranty
